

POSSIBLE CHANGES TO REGULATIONS FOR YELLOW PERCH

The department would like to clarify coordinates in the yellow perch chapter. A recent review of coordinates found three areas that need to be clarified. These are all housekeeping changes.

- 1) The coordinates in the Bush River (Code of Maryland Regulations 08.02.21.03K(2)) need to be updated due to erosion. The new coordinates for where a person may not set a fyke net will be upstream of a line beginning at a point at or near the mouth of Church Creek defined by Lat. 39°28.04'N and Long. 76°13.33'W then running approximately 100° True to a point defined by Lat. 39°28.03'N and Long. 76°13.22'W.
- 2) The Code of Maryland Regulations 08.02.21.03K(3) has one of the points in the Chester River as 36°14.62N. That should be 39°14.62 N. The coordinate currently described is located in Virginia. The coordinate will be corrected.
- 3) The Code of Maryland Regulations 08.02.21.03K(4) states that a person may not set a fyke net in the Chester River upstream of a line beginning at a point at or near Ford's Landing defined by Lat. 39°15.04'N and Long. 75°53.70'W; then running 270° True to a point on the Kent County shore defined by Lat. 39°15.04'N and Long. 75°53.64'W. The point defined as "a point on the Kent County shore" actually falls on the Queen Anne's County side of the river. The county name will be corrected.
